

# charter of corporate responsibility >

The Innovative Assets Group of Companies is committed to conducting business with integrity and transparency. We value our reputation and take pride in the trust and confidence that our community partners and stakeholders, employees, homeowners and the general public have placed in us.

We pride ourselves on our dedication to the health and safety of our employees and the environment in the communities where we work. Our commitment to providing a workplace that values diversity is based on principles of respect and our Company's Code of Ethics. We work to provide each of our employees with the opportunity to achieve their full potential within the residential construction industry so that our successes can also be celebrated as their successes.

We support sustainable development and continuously work to improve our business practices to ensure that our partners, stakeholders and the communities we work in will benefit from and enjoy our affordable housing projects and programs. Our promise to the community is that we will be fair and open in all undertakings and will conform to all applicable laws, regulations and rules that govern us.

We take the commitments outlined here seriously and our management team will make every effort to foster a culture that supports and honours these commitments.
